Additional Skills

frontend developer

backend developer

Fullstack developer

About Me

Hello and thank you for your time. I sincerely appreciate you taking the time to review my resume. In this document, you can find links to my portfolio, as well as access to my GitHub and more complete projects. Additionally, my Quera profile and internship experience at the Quera Bootcamp are also available for review. I have around 4 years of experience in programming and web development, during which I have worked on real-world projects and gained practical experience. In the early stages of my career, my focus was mainly on web development and UI implementation (about 1.5 years in this area). However, after working on real projects and facing challenges related to deployment and production environments, I realized that my understanding of the full software development lifecycle still needed improvement. As a result, through a focused learning path—especially by leveraging AI tools and hands-on projects—I have been actively improving my knowledge in product design, software arch
